Plastercraft Fire Surrounds

Plastercraft fire surrounds are available in the styles shown here, and are available from stock, or can be customised to any size.

Our fire surrounds are manufactured from plaster and are reinforced with glass fibre which **will not burn**. The finely sculptured scrolling and decoration make these fire surrounds works of art, sure to enhance any home.

Fibrous plaster has been manufactured in New Zealand for over a hundred years. It is non toxic, strong and versatile.

Plastercraft products are unconditionally guaranteed for workmanship and material quality for 50 years from the date of purchase.

We manufacture a wide range of fine plaster products including ceiling and wall linings, cornices and corbels. Our work is both residential and commercial.
